

A ZINE FOR A CAUSE

YOUR BYLINE

It takes courage to stand up for something you believe in. But it's so much easier when you stand with others.

This is the magic and power of activism. True transformation happens when passionate people come together to insist on changing the status quo.

So go ahead, find your advocacy. Make a stand and let your voice be heard. Who knows? Maybe there are others like you just waiting for a platform, too. Let your ripple be the start of a wave of transformation.

Our smallest acts create a ripple of change. Everything we do is a step towards creating or destroying the future for generations to come.

We can't delay any longer - from here on out, every action must be made with intention.

But it's not all dire. There is hope, so much of it. We see it everywhere, in acts both local and global, individual and collective. We're all waking up and realising we still have agency.

It's still within our power to create a future for our children, and their children. Humanity can still embrace its potential to shape a better world - but we all need to pitch in to make it happen. We need to put the collective ahead of the individual if we are to stand a chance.

This is where your voice comes in. Never underestimate what one person can achieve when he or she makes a stand, cries out against injustice, or simply commits to living differently so that others might do the same.

The voice is powerful. It is a tool for change, but it must be used correctly. Truth, authenticity and inclusiveness are its powers. Both the message and the medium must allow honest, open and respectful discourse.

There are many causes worth fighting for and contrary to what most people think, adding your voice to what you believe in does make a difference.

So use it. Don't abuse it. Make yourself heard, but also listen to others. No single person holds all the answers, but no one should be afraid to speak.

THE WORLD NEEDS YOUR PASSION

One act, one voice can pave the way,
A better tomorrow starts today.
Choose a worthy cause and do your part,
Your actions inspire a change of heart.

Don't belittle what one person
can do. Even the biggest
movements start with a few.
The world will never be the
same when the smallest spark
can start a flame.
